

COUNCIL CABINET 22 January 2014

Appendix 2

Report of the Cabinet Member for Business Finance and Democracy

Capital Budget 2014/15 to 2016/17

SUMMARY

- 1.1 The report sets out the 2014/15 to 2016/17 capital programme for recommendation to Council on 29 January 2014. The main areas of the £318,568,000 programme over the next three years are ...
 - £33,777,000 to deliver the Council's Leisure strategy which will include a new 50 metre swimming pool together with the delivery of the Multisports Arena and new athletics track.
 - £25,000,000 to deliver the jointly funded waste disposal plant in partnership with Derbyshire County Council.
 - £52,949,000 Children and Young People's Directorate programme including the Primary Capital programme; and repairs, maintenance and improvements to the fabric of school buildings.
 - £60,469,000 Housing programme, including refurbishment to Council-owned houses in the Housing Revenue Account (HRA) along with further Housing General Fund schemes to deliver decent homes and assistance to vulnerable householders, disabled facilities grants, other repairs and assistance in the private sector and support for affordable housing.
 - £23,674,000 for highways and transport to improve the highway network and deliver major schemes such as London Road Bridge replacement.
 - £12,193,000 for property maintenance of the Council's buildings and infrastructure.
 - £3,024,000 for the Extracare programme for Derby Senior Citizens in our Adults Social Care Service.
 - £59,966,000 for regeneration of the city centre and key regeneration areas.
 - £30,828,000 for the Environmental Agency flood defence project Our City Our River.

- 1.2 A number of measures to balance the capital budget have been applied including over programming and additional borrowing, as detailed in Section 6.
- 1.3 A review of the capital programme by Cabinet has resulted in a reduction in the amount of borrowing from 59% to 44% over three years, with the 2014/15 programme only reliant upon 27% borrowing.
- 1.4 The report also outlines assumptions made on future year's government allocations which are still to be confirmed, as detailed in Paragraph 5.2.
- 1.5 The capital programme is categorised by asset group. For example, all council owned (non- schools) property enhancements are categorised under property rather than against the Directorates which operate from those buildings. A summary of the overall capital programme for 2014/15 to 2016/17 is shown at Appendix 2.
- 1.6 Results of the capital consultation and responses are included at Appendix 5.

RECOMMENDATION

- 2.1 To approve the capital programme for 2014/15 and the indicative capital programme for 2015/16 and 2016/17 as set out in the report. A summary is shown in Appendix 2.
- 2.2 To approve the commencement of the capital schemes presented in the 2014/15 capital programme detailed in Appendix 2.
- 2.3 To approve the allocation of S106 funding as detailed in paragraph 5.5 table 2.
- 2.4 To note assumptions made for government funding allocations, detailed in paragraph 5.2.
- 2.5 To note the process of review undertaken on the current capital programme and the process for assessing new bids described in section 4.
- 2.6 To note the revenue budget implications of the proposed programme described in sections 6 and 8.
- 2.7 To approve the continued principle of over-programming to a level of 10%.
- 2.8 To recommend that Council approve the additional borrowing required to fund the 2014/15 -2016/17 capital programme.
- 2.9 To note the results of the consultation process and approve the Cabinet responses shown at Appendix 5.

REASONS FOR RECOMMENDATION

- 3.1 The Capital programme for 2014/15 and the indicative capital programme for 2015/16 and 2016/17 require Council approval under Contract and Financial Procedure Rules to ensure that the programme meets the corporate outcomes as detailed in paragraph 7.2.
- 3.2 In order to support the decision making process a review of the existing programme

has been carried out to ensure that the limited funds available can be targeted appropriately to meet the Council's overall aims

COUNCIL CABINET 22 January 2014

Report of the Strategic Director for Resources

SUPPORTING INFORMATION

4. DEVELOPMENT OF THE CAPITAL PROGRAMME

- 4.1 In January 2013, Council approved a capital programme for the period from 2013/14 to 2015/16 with 2014/15 and 2015/16 as indicative allocations only. This provisionally allocated corporate resources available in order to meet significant investment needs for service improvement.
- 4.2 The Council's budget strategy report for 2014/15 was presented to Council in September 2013, and included details of the Council's proposed approach to development of the capital programme. Following adoption of this strategy, the proposed capital programme has been developed using the following methodology:
 - Assessing the current programme to include all schemes that are contractually committed which will continue into 2014/15. These schemes have been automatically included in the 2014/15 - 2016/17 programme.
 - Identifying schemes and unallocated funding streams which are not contractually committed but have identified funding for them.
 - Submission of directorate bids for new and enhanced investments, which were prioritised internally and reviewed by Cabinet.
 - Pooling of single capital pot funding with allocations to education and transport as well as other priority schemes.
- 4.3 The original programme for 2013/14 to 2015/16 has been closely scrutinised to identify schemes that will automatically continue as they are contractually committed and have identified funding to enable them to proceed. As part of this process a number of amendments have been made to the existing Capital Programme:
 - Remove the riverside path scheme from the programme
 - Retain but reduce the planned expenditure on Alvaston District Centre scheme
 - Re-profile District Centre enhancement programme by one year
 - Remove Derby Station Area building frontage improvement scheme due to low take up of grants
 - Efficiency saving in e-Services programme plus a switch between capital and revenue funding reduces the capital scheme requirements.
 - Defer remaining Leisure Strategy by one year
 - Remove refurbishment and associated costs of the Roman House scheme as the Council explores the opportunities to manage services from existing buildings including the Council House

- 4.4 The quarter 2 capital budget report reported to Cabinet 22 November 2012 was used as the basis for the indicative 2013/14 2015/16 capital programme planning. This has since been revised with all of the amendments approved at further cabinets since this date. It also includes the amendments included in the financial matters report to this Cabinet.
- 4.5 Table 1 below summarises the final revisions that have been made to the 2014/15 to 2016/17 capital programme from the consultation process to incorporating all cabinet changes

Table 1 Final changes to 2014/15 to 2016/17 capital programme since the Consultation process.

| Change (cumulative) | 2014/15 | 2015/16 | 2016/17 |

| | | | |
| Revised Funding Available | 122,343 | 95,237 | 100,988 |

4.6 The provisional capital programme 2014-2017 was developed by the Council's Strategic Asset Management Board - SAMB, in conjunction with Chief Officer Group and Council Cabinet.

4.7 **Bids**

SAMB received a number of bids for new capital schemes from Directorates, 2014/15 – 2016/17. Seven of these bids totalling £17,472,000 were requests to extend the existing programme, for the allocation of similar annual funding in 2016/17 such as for CYP and highways. Schemes, totalling £110,431,000 were new and included the following:

- Schools additional Special School places
- Our City Our River
- Property Investment portfolio
- A52 Strategic Transport Scheme
- Property Adaptations for Foster Carers
- Redevelopment of remaining children's homes
- Major projects relating to property rationalisation outcomes
- Derby Silk Mill visitor attraction development fund
- ICT end of life replacements.
- 4.8 A Star Chamber meeting was held in October 2013 led by the Leader of the Council, to consider and challenge the proposed programme.
- 4.9 Details of the finalised proposals for new capital schemes were included for Public Consultation between November 2013 and December 2013. No recommendations or comments regarding the proposed Capital Programme were made from public consultation.
- 4.10 The proposed Capital Programme was considered at the Corporate Scrutiny Board in December 2013 as part of the consultation process. No recommendations regarding the capital programme were made at this meeting.

5. FUNDING

- 5.1 The capital programme is financed from the following resources, which are defined in more detail in Appendix 3:
 - Residual Supported Capital Expenditure (Revenue) (SCE-R) allocations for borrowing from Government.
 - Supported Capital Expenditure (Capital) (SCE-C) grants from Government for the major service blocks of CYP, Transport and Health.
 - Earmarked proceeds of Section 106 receipts after consultation through the commissions, Cabinet and Ward councilors.
 - Other external resources and grants, in so far as these are earmarked for use by that service, for example specific European and lottery funds.

- Capital receipts available, earmarked for specific service programmes and those which have been pooled for corporate reallocation.
- Contributions to capital from within service revenue budgets, either as direct contributions or to finance borrowing.
- Spend-to-save capital schemes funded through self-financing borrowing
- Corporate borrowing funded through the revenue Treasury Management budget.
- 5.2 All of the Capital allocations for the Single Capital Pot have not been received at the time of writing this report. Therefore, where allocations have not been received, these have been based on the previous year's allocations, in line with the latest information available from government. The integrated transport and maintenance allocations were received in 2012/13 for 2013/14 and 2014/15 and these have been included as actual allocations. The Personal Social Services (PSS) allocations have also been received and included in the programme. The CYP allocations for 2014/15 onwards have not yet been received; the programme will be amended accordingly once these become available.
- 5.3 Broad levels of funding have been allocated to asset groups such as highways and property maintenance. Detailed priority setting will follow to allocate this funding to specific schemes. This will be managed by the relevant governance boards including:
 - The Infrastructure Board
 - The Property Board
 - The Regeneration Board, and
 - The Strategic Asset Management Board.

5.4 Capital Receipts

Capital receipts have now been removed from the programme and where possible have been replaced by unsupported borrowing and switches with single capital pot allocations for short life assets. The cost to the revenue budget will be an additional £189,000 in 2014/15, £88,000 in 2015/16 and £20,000 in 2016/17. This removes any reliance on the success of property sales and utilises borrowing in a more efficient manner.

5.5 **S106 Contributions**

It was agreed through the S106 working group that any allocation of S106 monies would be reported to Cabinet during the year to inform members what specific contributions are intended to be used for. Any in- year allocations are generally reported through the monthly Contract and Financial Procedures Matters reports, and quarterly Capital Monitoring reports, as they arise. As part of creating the new programme any S106 known to be required to fund the new programme are listed in Table 2 for years 2014/15 and 2015/16.

Table 2 S106 allocations

| Strategy | | | | | S106 ref |
|-----------------|--|--|---------------------|-------------------|----------------|
| Area | Scheme | Developer | Ward | £ | no |
| Parks & Play | Markeaton Park | Sanctuary | Mackworth | | ArtN1-03 |
| areas | | | | 75,540 | |
| Parks & Play | Markeaton Park | Clowes | Alvaston | | Long1-01b |
| areas H&T | Active Travel- Cycle Derby | Peveril Homes Persimmon Homes and Radleigh Homes | Mickleover | 251,548 21,000 | MicCps1- 04 |
| HGF | Affordable Housing | Miller and David Wilson | Chellaston | 200,000 | WeCh2- 07a |
| H&T | Littleover District Centre | Acute Services – NHS Hospital Foundation Trust | Littleover | 50,000 | AcuS1-02b |
| H&T | Littleover Bus Stop Improvements | Acute Services – NHS Hospital Foundation trust | Littleover | 20,000 | AcuS1-02b |
| H&T | Continuation of residents parking | Acute Services – NHS Hospital Foundation Trust | Abbey Littleover | 4,500 | AcuS3-01 |
| H&T | Bus stop improvements in Nottingham Road corridor | The Point, Locomotive Way, Pride Park, Alvaston – Woodford Cedar Ltd | Derwent | 11,000 | Peng1-02 |
| H&T | Snelsmore Lane bus stop improvement | Mickleover Campus – Persimmons Homes, Peveril Homes, Radleigh Homes | Chellaston | 3,999 | WeCh1- 01b |
| H&T | Agard Street Carriageway Maintenance Scheme | Penguin Hotel – S J Industries | Arboretum | 80,000 | EagC 1-02 |

6. **Balancing the programme**

- 6.1 The level of funding available is insufficient to support the existing programme and all of the new bids. In order to bridge the gap a number of initiatives have been applied, as detailed below.
- 6.2 **Over-programming** –The capital programme has historically under spent against the list of originally approved schemes. There are a number of reasons for this including ambitious spend profiles; the need for further analysis following feasibility and design stages; and complex tendering exercises and delays when on site. The proposed programme for 2014-17 includes a 10% level of over-programming, which for 2014/15 is forecast at approximately £13,594,000. Over-programming allows services to commence a broader programme whilst managing the level of spend during the financial year. This strategy allows a greater number of new schemes to begin to be implemented.
- 6.3 **Borrowing** the proposed programme includes total borrowing of £141,234,000 over the three years with new corporate borrowing funded from the 2014/15 revenue budget at a cost of £2,093,000, as outlined in the General Fund Revenue Budget report. The proposed programme for 2015/16 onwards requires a further level of borrowing to allow all schemes to go ahead. This requires a revenue requirement of £1,998,000 in 2015/16 and £2,667,000 in 2016/17. The revenue budget also presented to this meeting includes pressures for these amounts. This will be monitored closely and revised accordingly in future budget processes. The revenue implications of any additional borrowing will be reflected in the following year, ie the 2014/15 programme will require treasury management budget in 2015/16.
- 6.4 The proportion of the existing three year capital programme funded from borrowing is circa 59%. Scrutiny of the programme by Cabinet prior to consultation has reduced the reliance on borrowing for the forthcoming three year programme to circa 44%, with the 2014/15 programme only reliant upon 27% borrowing.

- 6.5 Specific points to note in relation to service funded programmes resources are ...
 - The service capital receipts factored into the funded programme have already been received in previous years and are currently held in earmarked capital receipts reserves to be available for use on the relevant schemes.
 - The New Deal for Schools Modernisation Fund, Adult Social Services Social Care and Mental Health, and the Local Transport Plan funding allocations are all classed as 'single capital pot' allocations. These are non- ring fenced funding allowing their use across the whole programme instead of placing specific service restrictions on their use.
 - Directorate programmes include funding from specific capital grants and external contributions which have been awarded or levered in for specific projects or block programmes such as the transport programme. Departmental priorities are used to allocate the funding to specific individual schemes in accordance with the guidance from the relevant funding body.

7. Proposed Capital Programme 2014/15 to 2016/17

Table 3 Capital

7.1 Table 3 shows the overall proposed summary capital programme for 2014/15 to 2016/17 together with the associated funding. A more detailed summary is presented in Appendix 2.

| Programme Summary 2014/15 to 2016/17 | | | | |
|---|-----------------------------|-----------------------------|-----------------------------|---------------------|
| Costs and Funding | Revised 2014/15 £'000 | Revised 2015/16 £'000 | Revised 2016/17 £'000 | Total cost £'000 |
| Total Scheme Costs | 135,937 | 90,714 | 102,130 | 328,781 |
| Less assumed capital slippage at 10% of latest programme at quarter 2 | -13,594 | -9,071 | -10,213 | -32,878 |
| Adjustments for slippage of over-programming from prior year | | 13,594 | 9,071 | 22,665 |
| Total Capital | | | | |
| Programme | 122,343 | 95,237 | 100,988 | 318,568 |
| Total Funding | 122,343 | 95,237 | 100,988 | 318,568 |

Table 3 includes slippage from the 2013/14 programme, the detail of which can be found in the Financial Matters report also presented to this Cabinet meeting.

- 7.2 The capital programme is consistent with the Council Plan which sets out our priorities and how we will go about delivering improvements. For 2014/15, it is proposed that we will work in partnership to achieve three 'big ambitions' and four 'local priorities'...
 - As a City we want people in Derby to have an...
 - o Inspiring start in life.
 - Inspiring working life.
 - Inspiring place to live.
 - As a Council in partnership with our communities and through strong leadership we want to deliver good quality services that meet local needs by having...
 - o Better outcomes for our communities.
 - Improved value for money for our customers.
 - More efficient and effective processes.
 - A skilled and motivated workforce.

Appendix 2 shows which local priorities are supported by each scheme.

- 7.3 In addition to corporate borrowing, allocations of additional prudential borrowing can be made available to support additional capital schemes on a self-financing basis. Spend-to-save schemes are those where the financing cost of the capital investment is matched or exceeded by direct revenue savings. Other self-financing borrowing may occur where financing costs are funded by contributions from existing core revenue budgets. In both cases, there is a need for a revenue budget virement from specific service department budgets to the corporate Treasury Management budget to fund these schemes. The service department retains revenue savings where these exceed the financing costs.
- 7.4 Appendix 4 sets out details of the prudential borrowing that has been approved for future years. This is in addition to those in progress in 2013/14. It should be noted that some of this investment replaces schemes that were originally scheduled in the capital programme as being financed from leasing, a more expensive funding route.
- 7.5 More schemes are expected to be brought forward for approval during the year. Self-financing schemes can be approved at any point in the financial year, on a case-by-case basis, as they are not competing for limited corporate resources. Departments are being encouraged as part of service savings option appraisals to consider the use of self-financing unsupported borrowing to re-shape service delivery. The Strategic Asset Management Board is considering property solutions and opportunities as part of the property review programme.
- 7.6 Subsequent reports will be brought to Cabinet during the course of the year where block allocations have not been fully allocated to individual schemes. The programme for 2015/16 and 2016/17 remains indicative, being set for planning purposes other than where a forward commitment is specifically required.

7.7 Analysis of corporate borrowing is on going to ensure the best use of corporate borrowing to maximise Council Value for Money. A future financial matters report will reallocate the borrowing to the most appropriate schemes in accordance with the prudential code. Borrowing will be switched with anticipated single capital pot allocations s where applicable to make best use of resources and ensure the borrowing can be applied over the maximum borrowing period, and minimise annual revenue budget costs.

8. **Revenue Implications**

- 8.1 The cost of unsupported borrowing in the revenue budget is dependant on the profiled spend in each financial year and the useful economic life of each capital asset being funded. The revenue costs of the proposed capital programme have been included in the revenue budget on this agenda. Any changes to the recommendations in this report could therefore have a revenue budget impact.
- 8.2 Approval of the prudential borrowing indicators and annual Treasury Management report will also be considered at this Cabinet meeting.
- 8.3 A revenue budget provision to cover lifecycle and on-going maintenance costs should be provided from departmental revenue budgets for all schemes in the capital programme, where relevant. The availability of such revenue budgets for capital schemes will need to be confirmed before capital schemes can commence.
- 8.4 The revenue budget provision for 2014/15, 2015/16 and 2016/17 also presented to this Cabinet meeting includes an extra £2,093,000, £1,998,000 and £2,667,000 respectively to pay for additional borrowing requirements.

9. Next steps

- 9.1 The full programme will be considered for approval by Council on 29 January 2013.
- 9.2 Subsequent to these decisions:
 - For block programmes, approval will be needed to the content of programmes, where this is not set out in the initial programme. This will include the Local Transport Plan, detail of which will be reported to Cabinet in February 2014.
 - The capital receipts position will be monitored and reported quarterly in the monitoring report.

OTHER OPTIONS CONSIDERED

5.1 None considered.

This report has been approved by the following officers:

| Legal officer | |
|--------------------------|---|
| Financial officer | Chloe Bowes, Head of Corporate Finance |
| Human Resources officer | |
| Estates/Property officer | |

IMPLICATIONS

Financial and Value for Money

1.1 As set out in the report. Revenue implications of capital schemes will need to be considered as part of the options appraisal undertaken before each scheme commences, and will be built into future revenue budgets as appropriate. Funding from unsupported borrowing in 2014/15 - 2016/17 is dependent on the approval of the revenue budget.

Legal

2.1 The rules governing decisions on the capital programme are set out in the Local Government Act 2003 and in regulations and guidance issued under the Act, including the Prudential Code for Capital Finance in Local Authorities issued by CIPFA. This allows for additional unsupported borrowing provided that this is consistent with the Prudential Code, particularly in terms of affordability.

Personnel

3.1 None directly arising.

Equalities Impact

4.1 None directly arising

Health and Safety

5.1 Health safety capital schemes are included in the property maintenance programme shown at Appendix 2.

Environmental Sustainability

6.1 All capital schemes make considerations to the Council's Environmental Policy.

Property and Asset Management

7.1 Valuations will be updated during the 2013/14 closedown process where properties have had major works undertaken on those of which can be found in appendix 2.

Risk Management

8.1 High profile and high spend schemes will be monitored and reported on through the monthly Strategic Asset Management Board.

Corporate objectives and priorities for change

9.1 The process set out for approval is intended to deliver a capital programme that is consistent with corporate objectives and priorities.

Funding Definitions

| Type of Funding | What it means |
|-------------------------------------|--|
| SCE (R) | Supported capital expenditure revenue This is a borrowing approval which is supported by the Government through the RSG settlement. An element of funding is included within the revenue payment of the RSG to fund borrowing costs. |
| SCE (C) | Supported capital expenditure capital This a form grant which is funded directly from central government grants. |
| Unsupported Borrowing Corp | Borrowing that's not supported by government but will be paid for through the treasury management revenue accounts via debt charges |
| Unsupported Borrowing Self Financed | Borrowing that's not supported by government but will be paid for from service depts revenue accounts via debt charges |
| Unsupported Borrowing Spend to save | Borrowing that's not supported by government but will be paid for from service depts revenue accounts via debt charges |
| Government Grants | Grants from central government for the major service blocks as well as other more specific grant funding |
| Other Grants | Grants other than those from central government |
| MRA | Major Repairs Allowance for the use on the HRA dwellings |
| NRF | Neighbourhood Renewal Fund which is received via the revenue support grant settlement |
| Revenue Contributions | Revenue funding to fund capital expenditure |
| Capital Receipts | Cash received from the sale of fixed assets |
| Capital Reserves | Cash earmarked for specific schemes usually surplus RCCO's transferred to reserves or specific money set aside in a specific reserve to be used for capital purposes |
| Service Reserves | Cash earmarked for specific revenue and capital schemes which are monitored and kept by the relevant service accountants. |
| Corporate Reserves | Cash earmarked for specific revenue and capital schemes which are monitored and reconciled by the central team. |
| Lottery | Money received from the governing body for the allocation of lottery funding |
| Other Contributions | Money received from external bodies other than central government |

Appendix 5 Summary of Consultation Results for the Capital Programme

4.7 New Proposals for the Capital Programme

The final set of proposals respondents were asked to consider were for the Capital Programme and this section outlines responses related to these proposals. Outlined below is the level of agreement with the proposals amongst respondents who completed the paper and online survey;

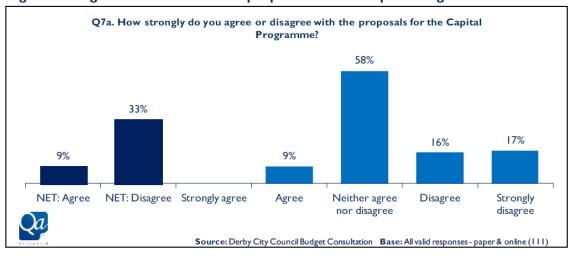

Figure 13. Agreement with the new proposals for the Capital Programme

The majority of survey respondents said that 'neither agree nor disagree' (58%) with these proposals, although respondents were more likely to 'disagree' (33%) than 'agree' (9%) with the proposals for the Capital Programme.

Outlined below are other comments made about the new proposals for the Capital Programme. This was a completely open question and verbatim comments have been coded into 'overcodes' for analysis which are shown in the table below;

| Q7b. Please use the space below to make any comments about the proposals for the Capital Programme. | All res | All responses | | |
|---|---------|---------------|--|--|
| | n | % | | |
| The programme as a whole should have less money allocated | 3 | 17% | | |
| The addition of new or modern leisure facilities should not be deferred | 3 | 17% | | |
| There is too much administration surrounding this | 2 | 11% | | |
| I do not know enough about this area to comment | 2 | 11% | | |
| Refurbishment of office facilities should be a lesser priority | I | 6% | | |
| Other | 7 | 39% | | |
| Base: All valid responses - paper surveys & online surveys (18) | | | | |

Figure 14. Comments regarding the new proposals for the Capital Programme

Only 18 respondents made an additional comment here and these covered a range of points including that "the programme as a whole should have less money allocated" (3 respondents) and that "the addition of a new or modern leisure facilities should not be deferred" (3 respondents).
