

HEALTH AND WELLBEING BOARD
14th November 2019

Report sponsor: Dr Chris Clayton, Chief
Executive Officer, NHS Derby & Derbyshire
Clinical Commissioning Group
Report author: Dr Chris Clayton, Chief
Executive Officer

ITEM 11

Creating an NHS Derby and Derbyshire Clinical Commissioning Group (DDCCG) Strategic Commissioner

Purpose

- 1.1 To provide the Health and Wellbeing Board (HWB) with an overview of plans to develop an approach to strategic commissioning approach for Derbyshire. This includes an outline of:
- The benefits of strategic commissioning.
 - What strategic commissioning could look like in Derbyshire.
 - The functions of strategic commissioning.
 - The progress being made towards strategic commissioning.

Recommendation(s)

- 2.1 To note the development of strategic commissioning in Derbyshire and progress being made.

Reason(s)

- 3.1 To ensure the HWB is aware of developing commissioning arrangements in Derbyshire.

Supporting information

- 4.1 Health is not only determined by health care services but other issues, such as socio-economic and environmental factors and lifestyle and behaviour. Improvements in health and wellbeing therefore require joined-up effort across all these factors.

- 4.2 The implementation of strategic commissioning is the best course for the people of Derbyshire and the only way to deliver truly integrated care. There are four key areas that strategic commissioning will act as a catalyst for:
1. Implementing the 'Triple Aim' of achieving better health, better care and better value for citizens.
 2. Improving population health.
 3. Removing waste and duplication.
 4. Removing perverse incentives.
- 4.3 Strategic commissioning will be a departure from the current state for both the NHS and local authority. Rather than a focus on detailed contract specification, negotiation and monitoring or the routine use of tendering, emphasis will instead shift to defining and measuring outcomes, putting in place capitated budgets, assigning appropriate incentives for providers and using longer term contracts extending over five to ten year timelines.
- 4.4 Progress has, and continues to be made towards the development of strategic commissioning including:
- The merger of the four Clinical Commissioning Groups (CCGs).
 - Ongoing work to strengthen joint commissioning arrangements.
 - The developing Integrated Care System (ICS) and build on the work of current eight Derbyshire Places through the development of Integrated Care Partnerships (ICPs).
- 4.5 Further updates will be provided to the HWB as the approach for strategic commissioning develops.

Public/stakeholder engagement

5.1 None.

Other options

6.1 None.

Financial and value for money issues

7.1 None.

Legal implications

8.1 None.

Other significant implications

9.1 None.
